### Understanding cables

Every cable message consists of three parts:

- The top box shows each cables unique reference number, when and by whom it originally was sent, and what its initial classification was.
- The middle box contains the header information that is associated with the cable. It includes information about the receiver(s) as well as a general subject.
- The bottom box presents the body of the cable. The opening can contain a more specific subject, references to other cables ([browse by origin](#) to find them) or additional comment. (C) In the absence of Foreign Minister Manuel Rodriguez, who is currently in Europe, Ambassador on 7/26 delivered reftel demarche opposing the G-4 framework resolution to MFA Vice Minister Oscar Maurtua. Maurtua said the GOP still had not reached a final decision on whether to vote in favor or to

abstain if this issue comes to a vote. Mautua said that the decision will be made by President Toledo, and he promised to convey the USG's views to the President in the course of the day. The Ambassador has attempted to contact President Toledo directly, and is awaiting a return call. The Ambassador also spoke with the Italian Embassy to compare notes, given that FM Rodriguez is passing through Italy.
